Top Achiever of English Builder Shares His Tips on Learning English

“Always remember that after you spend your time studying, you will have good results and get great compliments afterwards!”

– Trevi Yeung

“Whenever I have time, I try to sit next to my boy and we’ll do the exercises in English Builder together. It is a connection between my boy and me.”

– Mrs Yeung

Motivation to Success

Being one of the top achievers of English Builder requires both talent and perseverance. And motivation often plays a major role in the long road to success.

Excited about winning the prestigious award, Trevi shared with us the secret behind his success. He acknowledged that his mother is one of his motivations in learning English. Mrs Yeung has always provided Trevi with encouragement through activities such as reading books with him.

Tips to counter temptations

Resisting temptation is often a difficult task for students nowadays. Trevi admitted that he is no exception.

However, he always has a belief in mind which helps counter these “enemies”. He keeps reminding himself that there will always be good rewards for hard work. The compliments and sense of satisfaction have proved to be the greatest fruits born after the learning journey. He hopes that this belief can help other students in Hong Kong to overcome their own difficulties in the future.
